

## Knotted bracelets with freshwater pearls, rocaille seed beads and glass beads

Knot 3 bracelets using freshwater beads, rocaille seed beads and glass beads. Place the beads on the wire, clamp the macramé cord firmly onto the wire with crimp beads and then knot the bracelet.

**Inspiration: 16606**

**1**

Set includes materials for 3 bracelets.

□ □ Cut the macramé cord for the bracelets: □ 2 x 50 cm □ 2 x 15 cm □ 1 x 20 cm □ □ Cut the wire for the bracelet: □ 1 x 10 cm

**2**

Attach a crimp bead to the macramé cord (15 cm) and the wire (10 cm).

**3**

"Melt the ends. □ NOTE – all the ends will melt when they are cut off."

**4**

Pull the ends tight to the crimp bead and clamp together with a pair of flat-nosed pliers.

**5**

Place beads on the wire and continue at the other end, using the same approach as in steps 3 and 4.

**6**

Knot the bracelet with the two 50 cm lengths of macramé cord.

**7**

Here, you can see a knot. A knot consists of several loops around a cord.

**8**

Tie a knot at the ends. Thread on the beads and then tie another knot. Remember to melt the ends slightly.

**9**

Place the two ends of the knotted clasp as shown in the picture. Loop around them 4 - 5 times, then cut off any excess macramé cord and melt the ends.
