

Beaded bracelet with shrink plastic charm

Make your own bracelet with pastel pink rocaille seed beads and pretty charms in shrink plastic. String the beads onto the elastic cord and add the charms with the gold-plated round jump rings.

Inspiration: 16799

1

Draw designs onto the shrink plastic sheets – remember that they must be on the rough side of the shrink plastic sheets.

2

Colour the designs with coloured pencils on the rough side of the shrink plastic sheet.

3

Cut a hole in the pendants with a hole punch – remember that the hole must be large enough for the cord because it will shrink in the oven. Use the second largest hole size on the hole punch.

4

Now shrink the designs in the oven. See the package for instructions.

5

Add the shrunken charms to the bracelet with the round jump rings.
